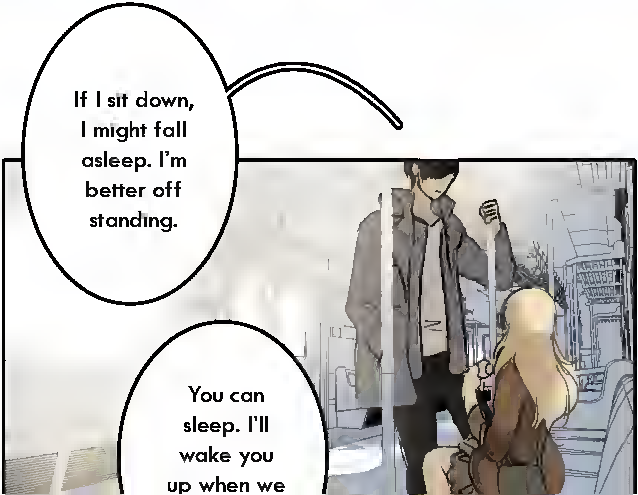
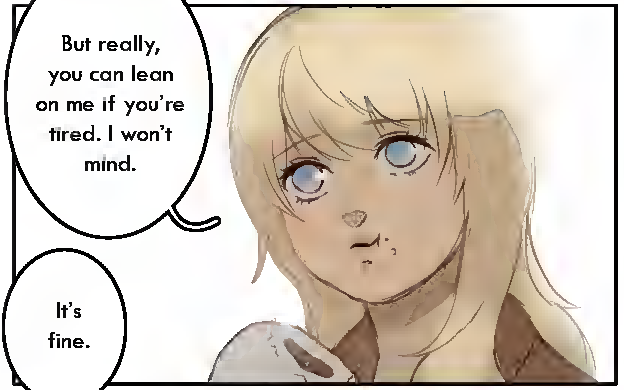
Dindin, there's plenty of space. You should sit!



If I sit down, I might fall asleep. I'm better off standing.
You can sleep. I'll wake you up when we

get there!

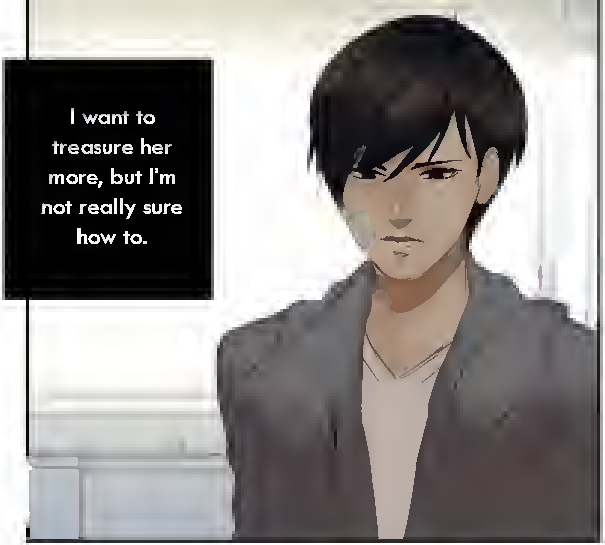


But really, you can lean on me if you're tired. I won't mind.
It's fine.

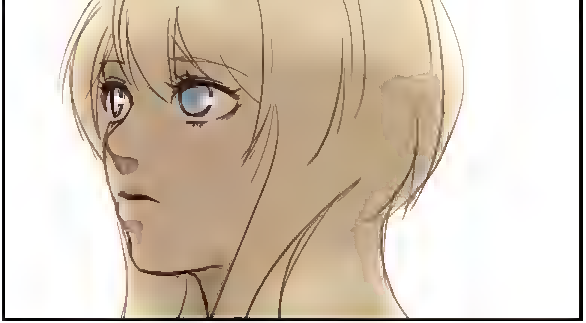
I've been holding back lately.

And while Rachelle has already dismissed that prior calamity ...

I can't seem to brush it away as easily.



I want to treasure her more, but I'm not really sure how to.



I can't even
bring myself

to tell her that.

Ah

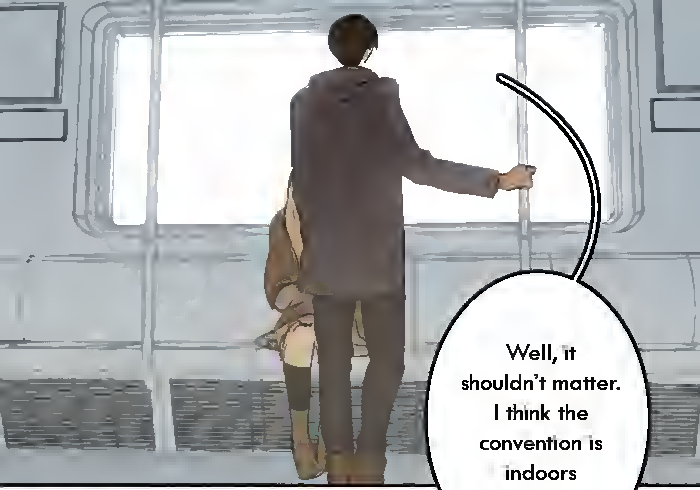
Ah--
It's raining.

That's weird.
I checked the
weather app

this morning and there were no predictions of rain.

I hope it dies out before we get to the convention.

I brought an umbrella!



Well, it shouldn't matter. I think the convention is indoors anyways.

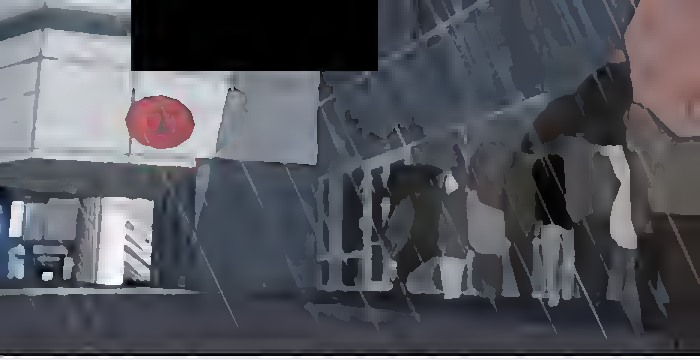
When we finally got there, the rain was pouring even harder.

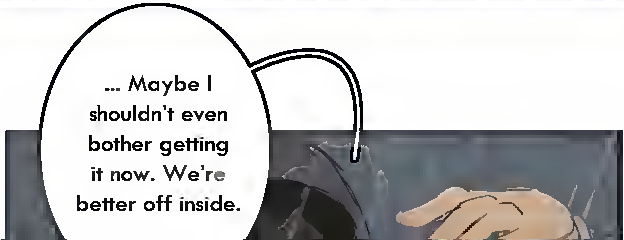
But we managed to get to the Astron Con quickly.

Once we were inside, I thought we wouldn't have to worry

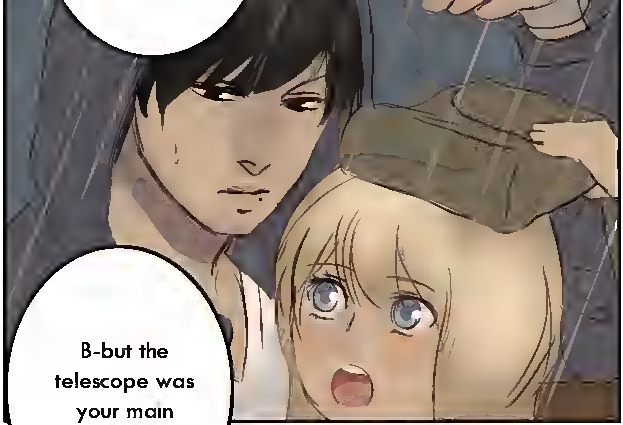
about the rain anymore...

Until I found out the line for the telescope I wanted trailed outside of the building.

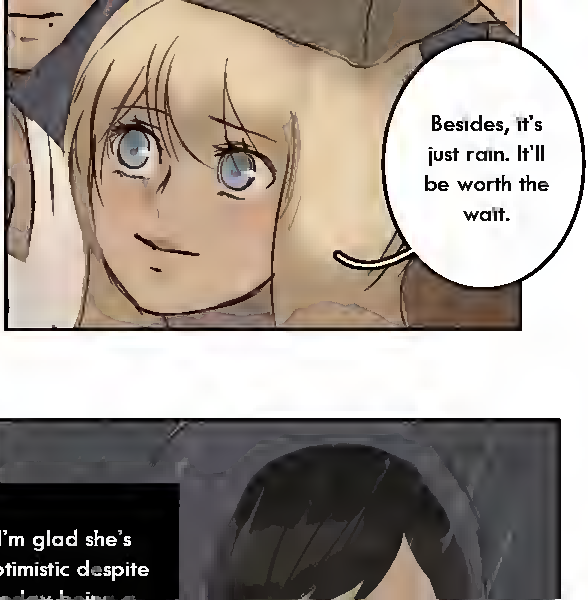




... Maybe I shouldn't even bother getting it now. We're better off inside.

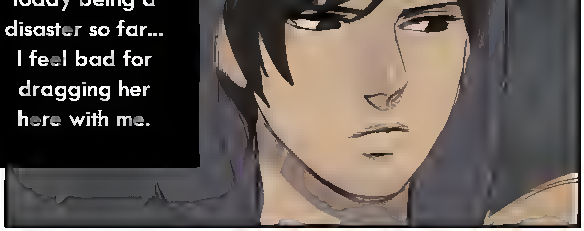


B-but the telescope was your main priority!



Besides, it's just rain. It'll be worth the wait.
I'm glad she's optimistic despite

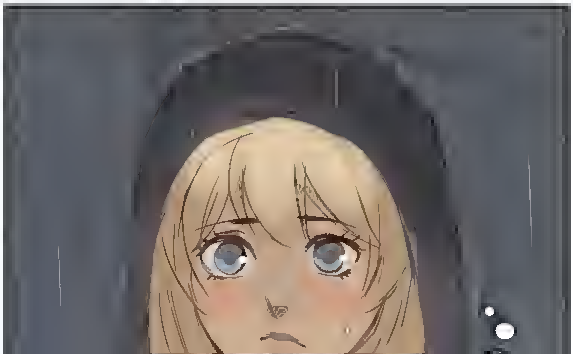
today being a disaster so far... I feel bad for dragging her here with me.



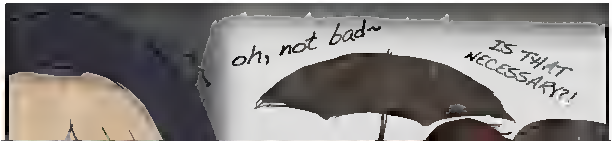
My main priority is you. If we're going to stay out here, you'll have to wear my coat.

Yours doesn't have a hood

H-huh?



I reluctantly took his jacket, but...
Now I'm conflicted.
Seems like it's calming down.



oh, not bad~
IS THAT NECESSARY?!

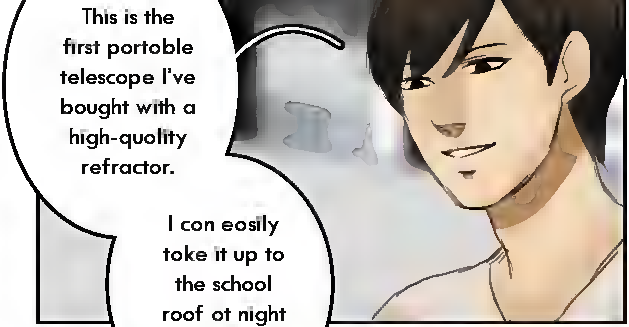
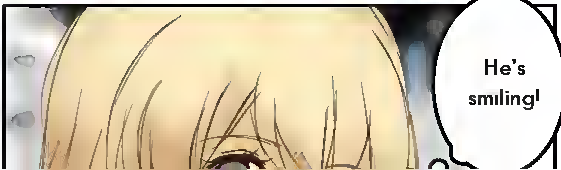
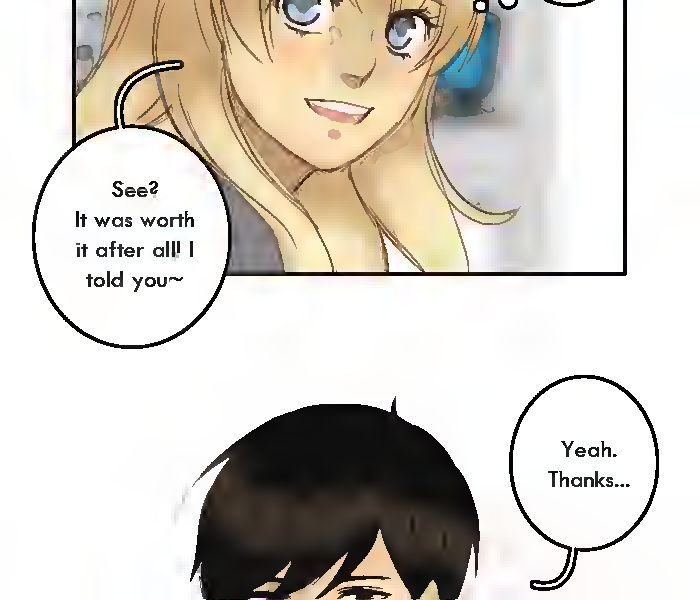
Finally.
Yay! We got it!



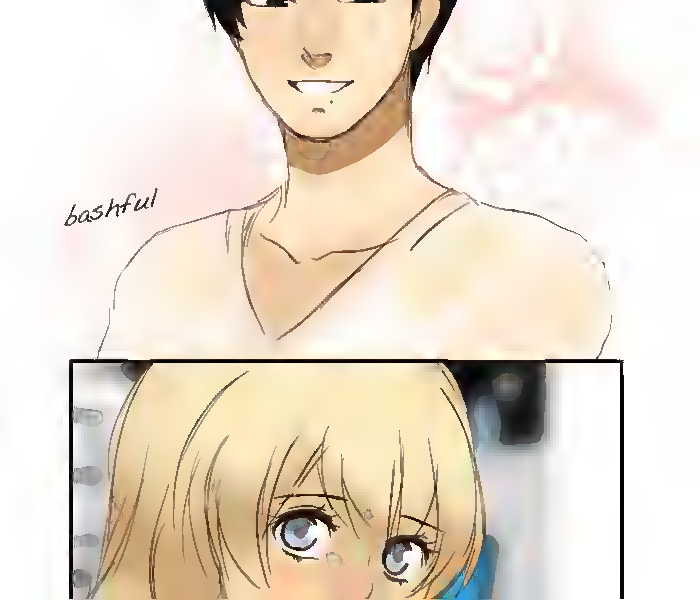
This is the first portoble telescope I've bought with a high-quolity refractor.
I con eosily toke it up to the school roof ot night to test it out.



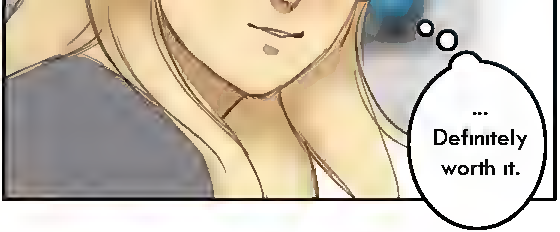
He's smiling!



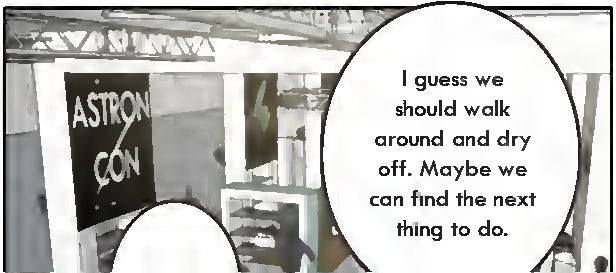
See?
It was worth it after all! I told you~
Yeah.
Thanks...



bashful



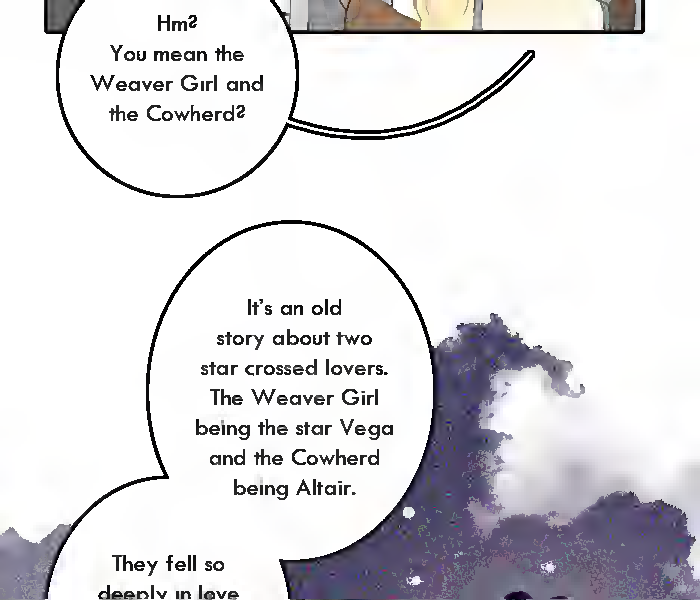
...
Definitely worth it.



ASTRON
CON
I guess we should walk around and dry off. Maybe we can find the next thing to do.

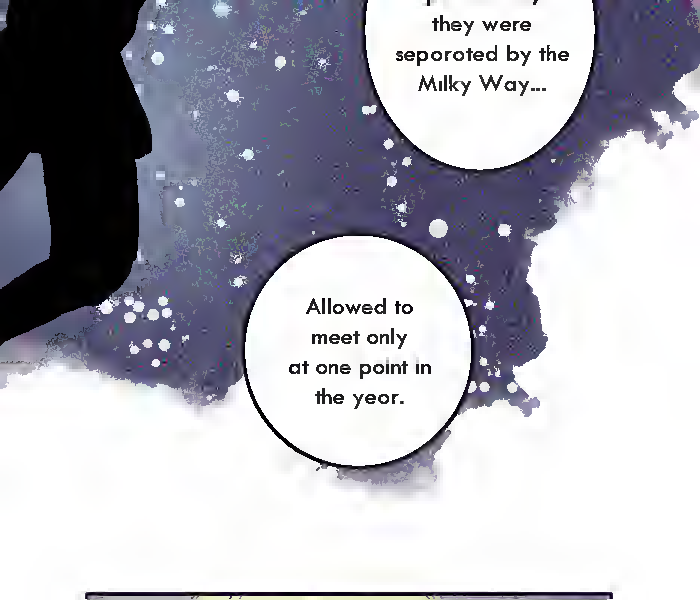
Okay!

Hey, Dindin.
What's that?

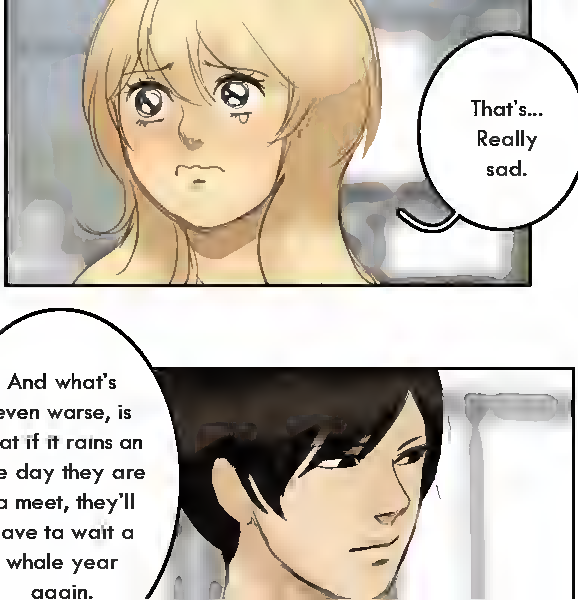


Hm?
You mean the Weaver Girl and the Cowherd?
It's an old story about two star crossed lovers. The Weaver Girl being the star Vega and the Cowherd being Altair.
They fell so deeply in love

with one another,
they neglected
their duties.
As a
punishment



they were
seporoted by the
Milky Way...
Allowed to
meet only
at one point in
the yeor.



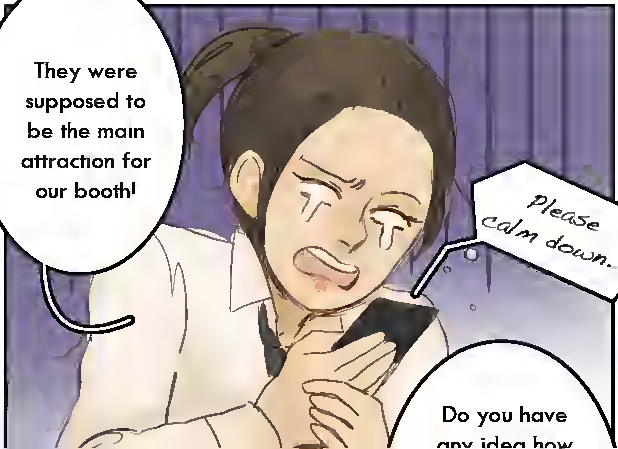
That's... Really sad.
And what's even warse, is that if it rains an the day they are ta meet, they'll have ta wait a whale year aagin.

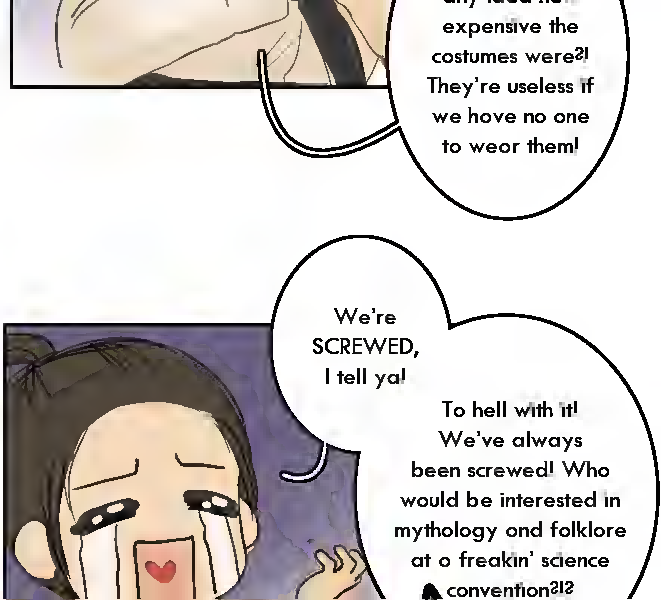
NOOO!
It's just a story, you don't have to take it so seriously.

It's still sad though!
SOB!
See? That
WHADDYA

lady is crying too!

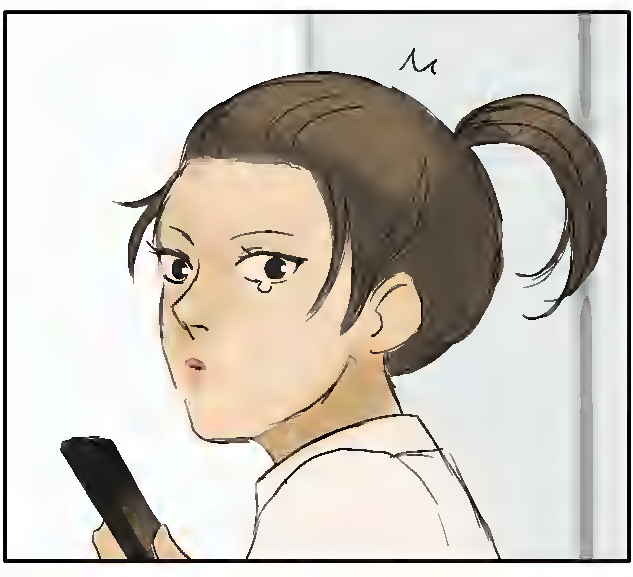
MEAN THEY CAN'T MAKE IT?!

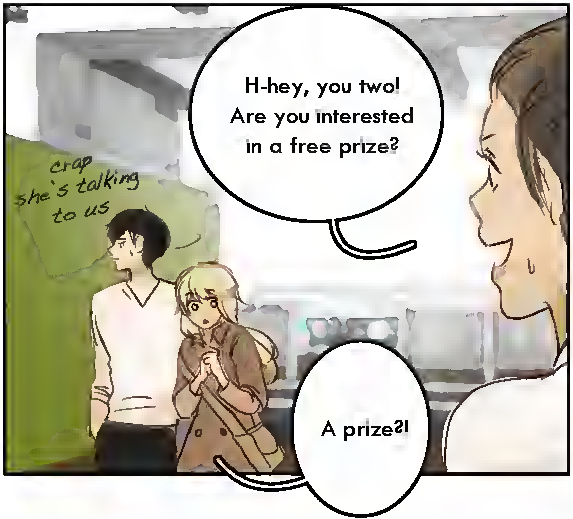




expensive the costumes were?! They're useless if we have no one to wear them!
We're SCREWED, I tell ya!
To hell with it! We've always been screwed! Who would be interested in mythology and folklore at a freakin' science convention?!?

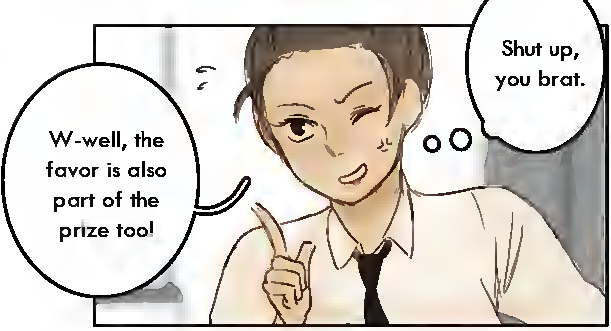
WAAAAAAAAA
so noisy..
My life is over! I should have followed my dreams in becoming a movie star!
SOB
poor thing..





H-hey, you two! Are you interested in a free prize?
crap she's talking to us
A prize?!

Mhm~
All I'm asking is a little favor in return.
If there's a "favor" required it's not exactly "free."



How would both of you like to volunteer as the lovely Weaver Girl and Cowherd for today?
